# about US

From our family... to yours!

**Minimo™ Playful Motivation is the story of one little family who gathered around a common project: simplifying families' daily lives by developing fun planning and motivational tools.**

Founded in 2016, the company was born from my passion for design and the early childhood years. Inspired by my 4-year-old son who never-wanted-to-take-his-bath, I pulled out my sketchbooks and started drawing what would become the **My Daily Routine** motivational kit.

Taking routine and making it fun is my mission. Surrounded by my family and Early Childhood professionals, I pursue my creative process by drawing inspiration from my everyday challenges and experiences. These have led to fun and practical products adapted to families' every day needs.

Join us in our colorful world!
